## FLOOR SCRUBBERS

**MAIN  
M3**

Double, counter-rotating brushes allow hard-to-reach places to be scrubbed squeaky clean.

OPERATIONAL WIDTH: 16"

**MAIN  
RAE**

Applies cleaning solution, scrubs, and recovers water all in one pass. Double, counter-rotating brushes give a thorough and efficient cleaning.

OPERATIONAL WIDTH: 18"

**TENNANT  
T20**

This rider scrubber is easy to operate and maintains and helps improve a facility's image by providing consistent, heavy-duty cleaning results.

OPERATIONAL WIDTH: 42"

**TENNANT  
5680**

An aggressive scrubber that delivers excellent down pressure and pad RPM for consistent cleaning results.

Most common size 32"

**TENNANT  
T7**

This rider scrubber is easy to operate and makes scrubbing large and small floor areas a breeze.

OPERATIONAL WIDTH: 26" OR 32"

**PACIFIC  
S28/32**

Mid-size scrubber that maximizes your effort by delivering best in-class scrubbing horsepower and RPM all at an affordable price.

OPERATIONAL WIDTH: 28" OR 32"

**PACIFIC  
RS28**

Features user friendly operations, flexibility to clean a variety of surfaces, and a long run time, which is ideal for large spaces that need cleaned.

OPERATIONAL WIDTH: 28"

**ADVANCE  
SC1500**

Provides a flexible extremely maneuverable and compact solution for small to medium-sized areas.

OPERATIONAL WIDTH: 20"

# RUNYON INNOVATION

## RUNYON DATA SERVICES

### STEP 1: DOWNLOAD APP

**WHAT IS IT?**  
Wireless technology that communicates between app and measuring devices that collects polished floor readings.

- productive and efficient application
- cuts down on labor and time
- generates a data report based on readings

### STEP 2: COLLECT DATA

### STEP 3: GENERATE REPORT

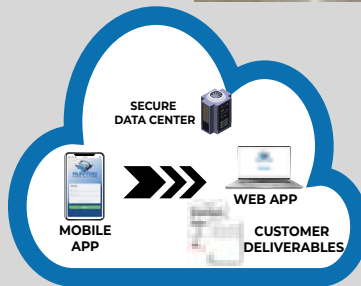

DATA CART

BLUETOOTH

MEASUREMENT DEVICES

PATENT PENDING

### WEB CAPABILITIES

View all historical records created and data captured within your own organization

- Sample locations plotted on a map
- Quickly view captured photos/signatures

Generate PDF or Excel Reports (Connection Required)

Manage your organization

- Role based user permissions
- View Runyon Data Services cart status and errors

### MOBILE APP CAPABILITIES

Capture surface parameters while online or offline

- Take photos, add markup
- Capture contractor signatures
- Record GPS location of sample points and display on a map

Generate PDF or Excel report (Connection Required)  
Saves data to the cloud in real-time

Supports all iPhones and iPads running iOS 14 or higher

Supports all Androids running Android 6 and up
